URD Turret - Series Eleven

High density injection moulded polyethylene turrets and bases

Easily transported and installed

Strong but light base and turret allow easy transport and installation. Turret is easily and simply secured to base with D-head stainless steel or socket button-head screws.

Maintenance-free design

The all weather polyethylene construction requires no painting or maintenance, as protection against corrosion/moisture is not an issue.

Turret Details

Material: High impact polyethylene.

Colour: Green

Venting: For vented turrets add suffix "V". For example, the catalogue number for 'tall vented' would be UT11GV.

Markings: Danger Electricity.

IP Rating: IP44

URD Series Eleven Panels

These panels fit the tapered slots cast in the UEC Series Eleven bases. Order panels separately. Small panel UEP240 and UEP288 fit the small UT11SG turret. All other panels require the larger UT11G Series turrets.

Materials:

Switch panel type X to AS1795 except panel UEP288 which is injected moulded plastic.

URD Turret - EV Series

Self extinguishing reinforced fibreglass

The interchangeable turrets, bases and panels provide a combination that can meet wide ranging conditions in the field and provide cost savings in purchasing and inventory.

Turret Details

Turret:	Self extinguishing fibreglass
Venting:	Top vent holes on turret sides with a venting step at the base provides flow through air circulation and minimise condensation.
Door:	Turrets containing RD in the part number have a removable and lockable door
Hardware:	UESM10 socket button screw or DHBM10W22 D-Head bolt
IP Rating:	IP46D

Base Details

Function:	UEC1 base tapered on all sides
	UEC3 base tapered on three sides and flat at the back for mounting close to structures

URD Paralleling Pillar and Base

Series URDIC65

The paralleling pillar and base are designed to house a 3-phase switch disconnecter (FSD) for low voltage mains cable interconnecting. Alternatively they are suitable for servicing industrial/commercial customers.

URDIC pillars and bases are interchangeable with fibreglass EV Series cover and corresponding concrete base.

Turret Details

Material:	High impact UV resistant polyethylene
Colour:	Green.
Venting:	Top and bottom vented
Hardware:	4 x DHB10MW22 are provided standard with the base. There is also an Option 2 kit of 4 x UESM10 if requested.

Commercial/Industrial Distribution Pillar

Front and Rear Access Type UETSD6

Supplied as complete pillar assembly, comprising of turret, panel and base or just turret and base. This pillar is designed for front and rear access for simplified equipment installation and servicing. It has low maintenance design and materials. It is UV stabilised for a long service life and light weight to be easily transported and site installed. The design accommodates panels or busbars for stripplle fuses. The removable base front panel facilitates laying of larger cable sizes and provides easy service access.

Details

Material:	Self Extinguishing Fibreglass
Venting:	Top venting with interior baffles to protect wiring and equipment against unauthorised intrusion of foreign objects.
Panel Mounting:	Two internal moulded fibreglass angles provide for simple attachment of panels or busbars for stripplle fuses.
Security:	3-point door locking and latching bars. Customers may install lock cylinders to meet own master key system
Marking:	Danger Electricity
Hardware:	DHB32 or UES11, order separately
IP Rating:	IP44

D Head Bolt Spanners

Tube Spanner - Short

Cat No.	Description
E18340	126mm long tool for UET80 turret where design prevents use of T-bar types. Can be used on all DHB bolts on all turrets

S-Bar Spanner - Long

Cat No.	Description
E19882	780mm long tool for all DHB D head bolts

Turret Security Equipment

Locking Devices

Cat Nos. LD1 and LP1

For turrets types UET EV, UET1 SEV and UET SL1V.
Padlocks not included.

Cat Nos. LD3M and LP3

For turrets types UET Series Eleven. Padlocks not included.

Locking devices LD1/LP1 and LD3M/LP3 have similar, but not interchangeable, components. Each have stainless steel bolts with flat extension drilled to accept padlocks and have stainless steel locking plates. These locking devices, in conjunction with their appropriate turret hold down bolts, provide turrets with a high degree of security against unauthorised entry.

Cat. LP1 & LD1-2

Cat. LP3

Aluminium Service Blocks

Type ASB (Reg. design No. S8326)

Designed for use where two or more lugs are to be bolted together with provision for copper cable tee-off sockets. Made of high conductivity aluminium alloy and fitted with cadmium plated grub screws in tee-off sockets. Tee-off holes are pre-packed with Alminox.

The standard grub screws have a screw driver slot but can be supplied with an Allen Key screw on request. Type ASB1 and ASB2 can be supplied in brass. Consult Dulmison for further details.

Cat No.	Clamping Bolt Size	Length mm	Height mm	Thickness mm	Number & Size of Service Cable Holes
ASB1	1 x M12	40	50	12	2 x 8mm
ASB2	2 x M12	90	50	12	2 x 8mm
ASB3	3 x M12	140	50	12	2 x 8mm

Note: Hardware can be supplied upon request.

Standard aluminium bolt 40mm x M12 with nut and flat washer. Add -2 to part number eg. ASB1-2

Standard stainless steel bolt 40mm x M12 with nut and spring washer. Add -1 to part number eg. ASB1-1

Wedge Link

Type WL400

Designed for 400 amp. continuous current and for matching link palms spaced at 82.5mm centres.

Wedge Link Operating Handle

Type UELOH1

This is an insulated handle for screwing onto the threaded stud of Type WL400 Wedge Link. Insulated rubber gloves are recommended as an added safeguard. Each handle is electronically tested to 1,000 volts rating prior to supply.

LV Termination Shrouds

Types SHDL; SHDS

These shrouds slip over the cable terminations to prevent accidental contact with live parts and are held in place with plastic wire ties (not supplied). Their pliability permits elongated distortion to accommodate multi-cable installations.

Material: Fire retardant PVC

Colour: Black

Consumer Connection Pits

Dulmison consumer connection pits are made of high strength HDPE and polypropylene plastic exhibits excellent weather and chemical stability for long installation life. Design embodies special ribbing for on site strength and stability. Pits are extendable. Pit lids are available in concrete and galvanised steel checkerplate.

PIT6LSL(C/U)1	Steel	1 lid per pit	39.40

Riser for PIT8 is PIT8, height increase 440mm or PIT 6, height increase 332mm
For concrete lids PIT-TBAR is required

Cat. PIT-TBAR

Cat. PIT7TBAR

Heavy Duty Pits

For larger cable requirements

Series 450

Designed for commercial or domestic applications and trafficable areas, these heavy duty polypropylene pits are strong, durable and easy to install. The Series 450 pits are also available with riser units for 295mm depth increases. Ideal as an electrical or communications cable jointing pit.

Series 600

This large capacity heavy duty polypropylene pit is ideal for trafficable commercial projects. Optional risers are available for 300mm depth increases. Series 600 pits are well suited for large electrical or communication cable jointing where large radii are involved.

Covers: Available to Australian Standard AS3996 Class A (Light Duty) and Class B (Heavy Duty) in concrete or galvanised steel checkerplate.

Installation: When being used in trafficable areas, the Series 450 and Series 600 pits must be installed with a concrete collar to fully support the top of the pit. This collar should be approximately 150 x 150mm around the top perimeter.

PIT600R

PIT600

Pit Lid	Material (Type)	Overall Dim	
		Pits - inside dims Lids - Per Pit	Weight (kg)
PIT450		450 x 450 x 450	8.00
PIT450LCTU	Concrete	1 lid per pit	
PIT450LSTU	Steel	1 lid per pit	13.00
PIT450R		Height increase of 295mm	

Pit Lid	Material (Type)	Overall Dim	
		Pits - inside dims Lids - Per Pit	Weight (kg)
PIT600		600 x 600 x 600	14.30
PIT600LCT(E/C/U)	Concrete	1 lid per pit	60.00
PIT600LSTU	Steel	1 lid per pit	19.00
PIT600R		Height increase of 300mm	

Service Pit and Lid

Designed with wide side wall ribbing for high strength, the Dulmison service pit is made from linear, medium density polyethylene and exhibits excellent weather and chemical stability. Pit lids are available in concrete or glass filled nylon.

Pit Lid	Material (Type)	Overall Dim	Weight (kg)
		Pits - inside dims Lids - Per Pit	
PIT300D		320 x 530	4.50
PIT300DLCT(E/C/U)	Concrete	390 Dia	18.6
PIT300DLPT(E/C/U)*	Plastic	390 Dia	1.5

Plastic Pit Lid Features

- Tamper proof - latched
- Surface is non-slip
- Made from UV resistant material
- 3 tonne load carrying capability
- Lightweight - 1/12 that of concrete equipment
- Able to be retrofitted into existing pits

Pit Accessories

Lid Lifting Hook for concrete pit lids with lifting bore
Cat No. **LIDLIFTERHK**

Lid Lifter for concrete pit lids with elongated hole
Cat No. **LIDLIFTER**

Lid Lifter for plastic pit lids
Cat No. **PLLIFTER**

Insulation Piercing Connectors - Fused Type IPC

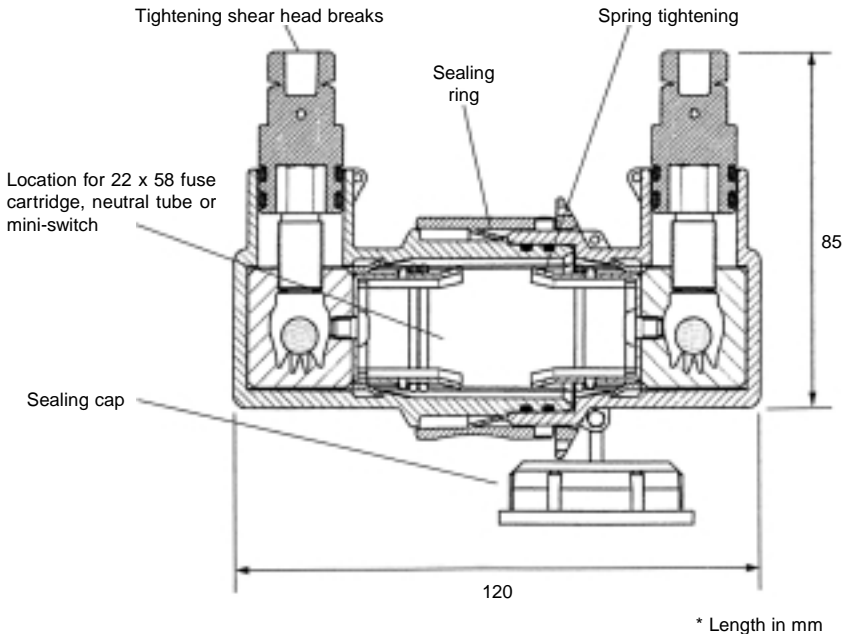

These fully waterproof, insulated connectors are suitable for installation in a pit and enable underground services to be connected quickly and safely by one person using a ratchet spanner.

The connectors have been rigorously tested and avoid the need for stripping, compression tooling or heat shrinking.

K199

- Terminals incorporate insulation piercing technology
- Simple, quick, fail safe three step installation
- Terminals accept a wide range of cables from 6-50mm²
- The K199 terminal has 2 cable entry points to suit phase connections and 100AMP fuse capacity with a 22 x 58 barrel type
- The tapered flexible cable seal enables the connector to remain waterproof, even when cables are not in straight alignment with the connector
- Terminals suit XLPE and PVC insulated single core and multi-core cables
- Reusable - up to three times with copper cable
- Connector is able to be separated with the fuse remaining in the dead side
- Plug provided to cap live side after connector is separated

Pit Connectors - GelPort

Submersible Secondary Connectors for URD Distribution

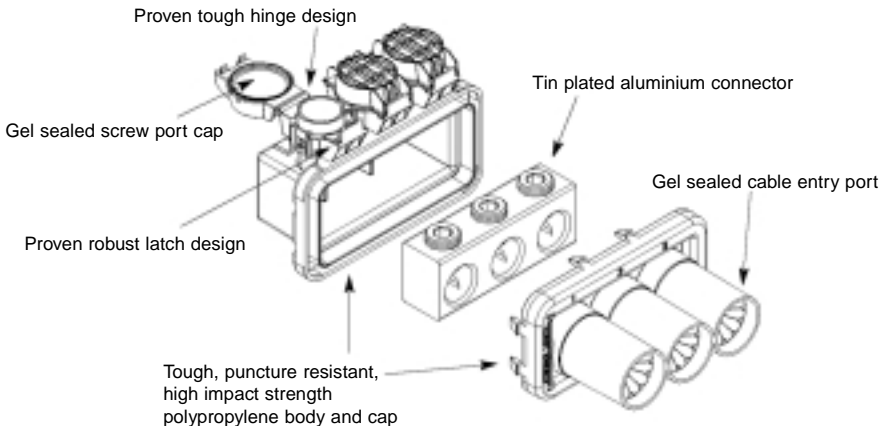

GelPort submersible secondary connectors utilise the sealing properties of PowerGel sealant technology to completely encapsulate and protect cable connections, even under water. Versatile and easy to install, the GelPort connector features no loose parts, no boots to trim, and no maintenance. This innovative product is available in 3, 4, 5, 6, and 8 port configurations, and is suitable for use on 4-150mm cables carrying up to 600V. GelPort secondary connectors dramatically reduce corrosion issues, resulting in longer service life and greater customer satisfaction.

To install GelPorts strip the cable and push it into the gel-filled cable port. The cable is encapsulated in gel and instantly sealed. It's that simple.

Cat No.	Number of Wire Ports	Conductor Use Range mm ²	Length	Width	Height
GPRT-350-3P	3	4-150	117	97	89
GPRT-350-4P	4	4-150	149	97	89
GPRT-350-5P	5	4-150	180	97	89
GPRT-350-6P	6	4-150	212	97	89
GPRT-350-8P	8	4-150	276	97	89

Marking Tapes

Type ELECTAPE

Protect your underground services with marking tapes from Dulmison. ELECTAPE is 100% Australian made, manufactured and tested to comply with AS2468.1-1995. It is marked CAUTION BURIED ELECTRIC CABLE BELOW and comes in a roll of 350m.

ELECTAPE conforms to all aspects of AS2468.1-1995 for:

- Material
- Width 150mm Colour
- (orange) Chemical
- Resistance
- Elongation
- Tear Resistance
- Impact Resistance
- Marking

Other underground tapes are also available.

Cable Support Rollers

Type CSR

Construction: Tubular galvanised steel frame; aluminium supports roller; stainless steel axle. Tubular frame members prevent unit sinking under load. Unit may be used as corner roller by turning on its side and staking through tubular members for stability. Roller has a 152mm diameter.

Principle Dimensions mm

Cat No.	Length	Width	Height	Roller
CSR3	381	235	244	152 Dia.

Low Voltage - Mains to Service - Branch Joints

Joints are designed for use with 4 core sector shaped polymeric mains cables, together with 4 or 5 core polymeric Branch cables. Joints are available with one of 2 encapsulation shell types as follows:

- Impact Resistant Polycarbonate - Type BAV
Supplied as two clip together halves

- Impact Resistant Polypropylene - Type MM
Supplied in Hinged form

All Kits are supplied complete with all necessary jointing materials, including foam seals, fillers, appropriate connectors, safety gloves and instructions.

Two types of filler material are available, and can be supplied in mixing satchels, or in tins. (Satchels being standard) Shelf life of both fillers is 2 years. Full technical details and MSDS data is available for each product.

- GUROFLEX - A Patented, ISOCYANATE free, environmentally friendly, 2 component cold casting compound. It is qualified to CENELEC HD623, and can be used on XLPE, PVC, PE or Paper insulated cables. Colour - Green.

- RAPID 3010 - This is a conventional two part Hydrophobic Polyurethane resin. It is qualified to CENELEC HD623, and can be used on XLPE, PVC or PE insulated cables - Colour - Blue.

Low Voltage - Mains to Service - Branch Joints (Cont'd)

Three types of connectors are available, within each kit. The mains to branch ring style connectors, incorporate insulation piercing technology to make the mains connection. All connectors are range taking. Mantle connectors are of the screw type, and can be supplied with insulating shrouds.

- **HELLSTERN** - Two Piece design - top and bottom
Tightening screws on each side, all mains connections made simultaneously, and all screws tightened from the top of the joint.
- **HINGED** - Ring Design
Is clipped into position over mains cores. Each core Connection can be carried out individually.
- **MANTLE** - Screwed Design
Nickel plated screw connector, available with Insulating Shrouds.

MM-7-3C-AU02	4 x 185 - 240*	4 x 6 - 70	RAPID3010	Hellstern	HEL-6879

* Can only be used on 240 Solid Sector cable

** Can only be used on 240 Stranded Sector cable

Note: MM-7 has a larger case than the MM-5 for greater clearance.

LV Jointing Tools

Mains cable over sheath removal tool - Cat No. **UNI25**

- Ratchet Design
- Suitable for cables over 25mm in diameter
- Strips circumferentially as well as longitudinally

Mains cable over sheath removal tool - Cat No. **JOR-20300**

- Fully Insulated Handle - rated at 1000V
- Non flammable thermoplastic material
- Suitable for cables over 20mm in Diameter
- Comes with protective cove for blade

Insulated Hex Drive - Cat No. **#TBOX5MM** & **#TBOX8MM**

- Fully Insulated and rated handle - 1000V
- 5mm and 8mm Hex sizes

Core separation Tool - Cat No. **IBSW1**

- Unique Hinged design, for controlled separation
- Nylon wedges, eliminates damage to cores.

Core Separation Tool - Cat No. **JOR-20400**

- Impact Resistant Thermoplastic
- Can be used on energised 1000 volt cables
- Designed to be driven to separate cores
